KAYUMBA JEAN MARIE VIANNEY

Fullstack Developer

Email: kayumbajmv@example.com | Phone: (123) 456-7890 | Portfolio: www.kayumbajmv.dev

Summary

Highly motivated Fullstack Developer with 5+ years of experience in designing and implementing web applications. Proficient in both frontend and backend technologies, with a strong foundation in problem-solving and collaboration. Adept at working in fast-paced and dynamic environments to deliver innovative solutions.

Skills

Frontend: React, Vue.js, HTML5, CSS3, JavaScript (ES6+)

Backend: Node.js, Express.js, Django

Databases: MongoDB, MySQL

Version Control: Git, GitHub

UI/UX Design: Adobe XD, Figma

APIs: RESTful, GraphQL

Deployment: Docker, AWS, Heroku

Testing: Jest, Mocha, Chai

Agile Development: Scrum, Kanban

Experience

Fullstack Developer

Tech Solutions Inc. | City, Country | June 20XX - Present

- Collaborated with cross-functional teams to design and develop scalable web applications, resulting in a 30% increase in user engagement.

- Led the migration of legacy codebase to a modern tech stack, improving code maintainability and performance.

- Implemented RESTful APIs and integrated third-party APIs for improved functionality and data synchronization.

- Designed and optimized database schemas, resulting in a 20% reduction in query response times.

- Conducted code reviews, mentored junior developers, and promoted best practices for coding standards.

Software Engineer

InnovateTech Ltd. | City, Country | January 20XX - May 20XX

- Developed responsive frontend interfaces using React and CSS, resulting in a 40% decrease in bounce rates.

- Collaborated closely with UI/UX designers to ensure pixel-perfect implementations of design mockups.

- Implemented backend services using Node.js and Express.js, handling user authentication and data processing.

- Integrated continuous integration and deployment pipelines using GitLab CI/CD and Docker.

- Participated in daily stand-up meetings, sprint planning, and retrospectives to optimize team performance.

Education

Bachelor of Science in Computer Science

University Name | City, Country | Graduation: Month Year

Certifications

- Fullstack Web Developer Nanodegree | Udacity | Month Year

- AWS Certified Developer - Associate | Amazon Web Services | Month Year

Projects

----

1. E-Commerce Website

   - Developed a full-fledged e-commerce platform using React for the frontend and Node.js with Express.js for the backend.

   - Integrated payment gateways and implemented user authentication and authorization.

   - Utilized MongoDB for database management and deployed the application on Heroku.

2. Task Management App

   - Designed a task management application with Vue.js for the frontend and Django for the backend.

   - Implemented RESTful APIs for CRUD operations and real-time updates using WebSocket.

   - Deployed the frontend on Netlify and the backend on AWS EC2.

3. Personal Portfolio

   - Created a personal portfolio website showcasing projects and skills using HTML5, CSS3, and JavaScript.

   - Designed UI/UX mockups using Adobe XD and converted them into responsive web pages.

   - Deployed the website on GitHub Pages.
